

The Krasman Centre's **Welcome Basket Program** is a short-term program to support individuals transitioning back into the community after clinical treatment. Our Peer Supporters recognise that this can be a difficult time, and we hope to make this transition as comfortable as possible.

We offer:

-  Clothing, toiletries, groceries, and small kitchen appliances, within a limited budget.
-  Referrals and connections to resources in the community.
-  Supportive peers to talk to, who understand the challenges and can provide assistance.

For details, or to register, please contact either Peer Supporter:
